**Effected Regions:** World wide  
**Notice Date:** May 16<sup>th</sup>, 2011

Effective May 18<sup>st</sup> 2011, Pharos Systems International will stop order taking on the Omega PS150 terminal. This includes the primary part number OMG-PS150 and all of the component parts listed above. Some of the individual components of the PS150 solution are no longer available from our suppliers.

The Omega PS150 terminal has been replaced by the Omega PS200 terminal. The PS200 provides the functionality of the PS150 but in a single unit.

RMA and warranty replacements of the PS150 will continue using the original PS150 stock on hand. Once stocks are depleted the plan is to transition to RMA replacements using the PS200.

Support for the PS150 will transition to mature status. Bugs will be fixed but no new features will be added.
