PHAROS PROFESSIONAL SERVICES

Realize the value of your Pharos solution quickly.

Getting up and running on new print software, workflows, and features can be a disruption for your bandwidth-constrained IT staff. Minimize disruptions and free up your team by leveraging Pharos' Professional Services and relying on the experts to design, implement, upgrade, and train on your Pharos solutions.

Pharos makes it easy to accurately plan and budget for Professional Services with transparent, fixed-pricing. This eliminates hidden costs and surprises, providing the flexibility of select services when ready.

Quickly realize the value of your Pharos solutions with our extensive catalog of Professional Services offerings:

Solution Delivery

Pharos experts prepare your organization for Pharos systems, guide you through the successful deployment, upgrade or migration of your system, and assist in preparing the organization's operational processes and documentation—getting your system up and running risk-free with minimal disruptions.

Training

Pharos experts train designated team members to administer and manage the Pharos solution and reinforce that training with documentation and hands-on use of the system to make your team self-sufficient.

Ongoing Services

As the needs of your organization change, rely on Pharos to continuously improve your system by providing high-level health checks and insights into your environment, and enabling or implementing new features and workflows.

To learn how Pharos can do the same for you, contact us today.
